“ I very late responding to this ...just seeing it. Dear Cornelia was in Houston in an apartment complex when I first drove into Houston reporting to work after graduating from Delta Airlines Training in ATL. There was a BIG mess up when I got there in May of 1970 in the arrangements I had made to live with/ other recent graduates and I literally had no place to go. Someone told me about Cornelia and she took me in late in the day and I stayed w/ her until I could find another apt w/ different 'stews'. We became friendseven when I married and moved to ATL. Oddly enough, she and Tony were around when I had to bring my husband to MD Anderson for treatment and invited me to join them on New Years Eve 2002..... (we had time to catch up again before that night). I chose to spend it with my Gary as I knew we were in the last days. Unfortunately, we lost touch over the last years but I will never forget that wonderful person.....the Goodyear Blimp ride I was able to get Tony upon, her dear willingness to sell 'shrimp' (that Tony had caught) on her days off from Delta, and her lovely heart. God has acquired another angel for sure. God Bless her family in their loss.
