“ *She was an awesome person! She accomplished so much during her time here on earth. I was proud to call her my family, my Aunt, my friend. I'll miss her dearly. I learned a lot about life and so many things from her! She helped shape who I am. There is so much that can be said but there is not enough space here! Until we meet again, you will be tucked away deep in my heart. I love you Aunt Jane!*
