

Meghan Roach

September 13, 1989 - March 4, 2026

Meghan Roach, 36, passed away on March 4, 2026. Born on September 13, 1989, Meghan lived a life marked by humor, fierce love for her family, and a personality that was truly unforgettable.

Meghan was known for her quick wit, sharp sarcasm, and the ability to make people laugh when they needed it most. She never hesitated to say exactly what was on her mind, and those who knew her understood that her sarcasm was often paired with a deeply caring heart. Meghan was also incredibly protective of the people she loved, always standing up for her family and friends and making sure they knew she had their back no matter what.

Family meant everything to Meghan. Her greatest joy in life was being an aunt to her three nieces, Rylei Pickerell, Hadlei Ann Pickerell, and Fynlei Mae Pickerell, who were truly the light of her life. She adored them deeply and took great pride in watching them grow, laugh, and experience the world.

She was preceded in death by her mother, Sherrie Roach, and her grandparents, Eddie and Ester Sullivan, and Warn M. Roach.

Meghan is survived by her father, Warn Roach, and her sisters, Jessica Roach and Tiffney Dement, along with many extended family members and friends whose lives were touched by her presence.

Though her time here was far too short, Meghan leaves behind a lifetime of memories, laughter, and love that will continue to live on through those who knew and loved her. Her family will forever carry her spirit with them and hold tightly to the moments they shared.

Meghan will be deeply missed, forever loved, and never forgotten.

A memorial service will be announced soon.
